First

Install Kubeedge edgemesh and sedna

reference:

https://kubeedge.io/zh/docs/setup/keadm/

https://edgemesh.netlify.app/zh/

https://github.com/kubeedge/sedna/blob/main/docs/setup/install.md

Second

Test sedna in Using Joint Inference Service in Helmet Detection Scenario

reference:

https://github.com/kubeedge/sedna/blob/main/examples/joint_inference/helmet_detection_inference/README.md

Third

Check in virtual machine
